

minCam360

Pan & Tilt camera

with our innovative
camera head!

P&T camera system for pipes from 70 to more than 400 mm

minCam360

Pan & Tilt camera

Dedicated to design and produce one of the smallest cameras for industrial purposes, drain and well inspection, minCam now launches the P&T camera system with a totally new concept of a pan & tilt camera head. This unique camera head is extremely small and short, so it can be used in pipes with an inner diameter of 70 up to more than 400 mm. Designed, developed and manufactured in Germany, this camera system is built for inHouse use inspection and inspection around the house. Push rod pan&tilt system for one-man surveys – **simple – robust – effective.**
