

# vCamMX Mini System

The vCamMX mini inspection camera system offers an all in one unit at an affordable price.

The system is available in 100 or 150 foot lengths of Kevlar reinforced pushrod with 2 models of interchangeable color camera heads. The system features a locatable sonde, traceable pushrod and distance counter as standard equipment. The vCamMX can be purchased as a complete unit with the control module mounted to the reel or purchase the reel separately to use with other vCam series control modules.

- Rechargeable battery provides more than five hours of battery life
- 8" Daylight readable display for working in any environment
- Interchangeable 1.02" (26mm) self-leveling and .70" (18mm) standard color camera heads
- Camera head exchange policy for out of warranty camera heads
- Locatable sonde and pushrod for pinpointing and mapping out lines
- Record direct to USB drives AVI video format and JPEG picture format
- Automatic backup of videos and pictures to SD Card
